Calculations, based upon the most authentic returns have established that since the introduction of railways into France, there has been only one traveler killed outright in every two millions of passengers, and there has been only one traveler wounded in every five hundred thousand passengers. It seems, also, that in France, where every care is taken to prevent timid dowagers, nervous rentiers and fast young people getting into danger at stations, the results have been less favorable than in Belgium, where one only has been killed in nine millions of travelers, and one wounded in two millions. Against railway accidents, one ought to be able to assure his life and limbs at a very small figure in Germany. In Prussia, and the Duchy of Baden, there has been but one killed in every seventeen million five hundred thousand of travelers, and only one wounded in one million two hundred thousand.

HOW THE SULTAN'S DWARF SECURED A WIFE. The Sultan's favorite dwarf, a man about thirty years old, and three feet high, a few years ago took a notion to marry, and applied to the Sultan for a wife. The Sultan gave him permission to go into his harem, and take the one whom he could kiss! The dwarf, like all other small men, was ambit'ous to have a long wife. While the Sultan's five hundred women, who knew the terms according to which the dwarf was permitted to choose, were laughing at the manikin, he went up to one of the tallest and handsomest of them, and struck her a sudden blow on the stomach. She collapsed with the the pain, and before she could recover he caught her by the neck and gave her the dreaded kiss. The Sultan kept his word, and the tall beauty is now the mother of the dwarf's children.

MUNEY RECOVERED FROM A HUMAN STOMACH At the residence of W. P. Reaves, in Shelby county, on Friday night, the 3d inst., Mr. R. J Fullerton was robbed of \$120 in bank bills-one of the denomination of \$100 and two \$10. A man named A. J. Phillips was accoused of the robbery, and upon being arrested was seen to swallow the bills. Dr. Pryor was at once called in and administered ipecacuanha, whereupon the bills were speedily brought to light. Phillips was committed to the Raleigh jail to answer the charge of stealing .- Nashville (Tenn.) Union,

THE EXTINCTION OF VESUVIUS -Some of the German journals announce seriously that a company of English capitalists have made an application to the King of Naples for a charter for the extinction of Vesuvius. The principal seat of the fire of that volcano is situated several thousand feet below the level of the sea By cutting a canal which would carry the water into the crater. the fire would be completely extinguished, and the operation, which would only cost 2,000,000f. would restore to cultivation land of ten times that

LFAF YEAR .- A Scotch statute of 1228, reads as follows: "It is stut and ordaint that during the reine of her maist blissit Magestie, ilk forth year, known as leap year, ilk maiden layde of baith high and low estait, shall hae liberty to bespeak ye man she likes; albyit, if he refuses to tak hir to be his wif, he shall be mulcted in ye sum of ane pound is (£1) or less as his estait, moi be, except and awis if he can mak it appear that he is betrothed to one woman, that he then shall be

IF At a meeting of the Rhode Island Society for the Encouragement of Domestic Industry, the report of the cultivation of flax, and its manufacture into cloth and other fabrics, was discussed. It was recommended to agriculturists in New England to try it, as the sale of the seed alone would pay for the labor, and by using the lint an article could be obtained cheaper than cotton, and superior for manufacturing purposes. Experience, however, can alone determine the practicability of

LYNCH LAW ON THE MISSISSIPPL-A young man who had taken passage on a Mississippi steamboat from Memphis, last week, was detected with the captain's watch and a valuable Masonic emblem in his possession. The passengers at once appointed a Judge Lynch court, which tried and convicted the offender, and sentenced him to receive thirty lashes upon his bare back. The punishment was duly inflicted. and the thief set ashore to plod his weary way

TAmong the hostile parties now contending in Africa there are three Sabbaths celebrated in each week. The Sabbath of the Moors is on Friday, the Sabbath of the very few Jews who fight in the ranks as irregulars of settlers in the country, for their hearths and homes, is on Saturday, while the Sabbath of the Roman Catholic Spaniard is on Sunday.

DEATH IN THE CARS .- Archibald Hume, Esq. a distinguished citizen, sank insensible from apoplexy, in the cars, near Plattsburgh, on Tuesday last. He died in a few minutes. He was returning home from a visit to New York. The commerce of Russian subjects in China

meets with no impediment and members both, of the lay and ecclesiastical mission, enjoy every destrable protection both in Pekin and the neighbor-The addition of 2,700 houses to the build-

ings in St. Louis within the last eighteen months, has done much towards supplying that greatest of wants. Rents are yet exorbitantly high. IF Ho 1. Ely Moore, late register of the Lecompton land office, was buried with Masonic

Prepared in Time saves The Bonomy! Wine. DISPATCH! Save the Pieces!

As accidents will happen, even in well-resulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Toys,

SPALDING'S PREPARED GLUE neets all such emergencies, and no household can afford to be without it. It is always ready and up to the sticking point. There is no longer a necessity for lumping chairs, splintered vaneers, headless dolls, and broken cradles. It is just the article for cone, shell, and other ornamental work, so popular with ladies of refinement and taste. This admirable preparation is used cold, being chemically held in solution, and possessing all the valuable qualities of the best cabinet makers' glue. It may be used in the place of ordinary mucilage, being vastiv more adhesive. " USEFUL IN EVERY HOUSE."

Statesmen, Judges, Attorneys, Doctors, Clergymen, Professional men, and Gentlemen and Ladies of all classes, all over the world, bear testiment that we do not say too much in its favor. mony that we do not say too much in its favor. Read the following, and judge:

HICKORY GROVE, St. Charles co., Mo., Nov. 19, '57.

PROF. O. J. WOOD—Dear Sir: Sometime last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it. Our little son's head for sometime had been perfectly covered with some and could be so its deal of the sound been perfectly covered with some and could be so its deal of the sound been perfectly covered with some and could be some called in sould been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative. Restorative; we did so with little lope of success; but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby, recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours respectfully, GEORGE W. HIGGINBOTHAM,

SARAH A. HIGGINBOTHAM. PROF. WOOD-Dear Sir: My hair had, for several years, been becoming prematurely gray, accompanied by a harshness which rendered the constant application of oil necessary in dressing it. When I commenced using your Hair Restora tive about two months ago it was in that condition; and havturned to its natural color, and assumed a softness and lustre greatly to be preferred to those produced by the application of oils or any other preparation I have used. I regard it as a indispensable article for every lady's toilet, whether to b used as a Hair Restorative, or for the simple purpose of dressing or beautifying the hair. You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it.

MRS. C. SYMONDS, 114 Third street.

CINCINNATI, O., Feb. 10, 1857. WELLINGTON, Mo., Dec. 5, 1857. PROF. WOOD-Dear Sir: By the advice of a friend of mine, who has been using your Hair Restorative, I was induced to try it. I had the fever, some time last May, and nearly every hair in my head came out. Now my hair has come in a great deal thicker than ever it was. Nothing but a duty and sympathy that I feel to communicate to others who are afflicted as I have been, would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative.

Yours respectfully, The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium dium holds at least twenty per cent. more in propor-tion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for \$3 a bottle.

OR KING'S BVIL. be a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low iiving, disordered or unhealthy food, impure air, fith and filthy habits, the depressing vices, and, above all, by the veneral infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." le a constitutional disease, a corruption of the blood, by Its effects commence by deposition from the blood of corrupt or nicerous matter, which, in the lungs, liver, and internal organs, is tefined tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrolulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders, which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which deciminates the human family has its origin directly in this acrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed,

of all the organs, arise from or are aggravated by the same One quarter of all our people are ecrofuleus; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renevate the blood by an alterative medicine, and invigoratest by kealthy food and exercise. Buch a medicine we supply in

COMPOUND EXTRACT OF SARSAPARILLA the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not enly scrofula, but also those other affections which arise from it, such as ERUPTIVE and SAIN DISPASES, BT. ANTHO-NY'S FIRE, ROSE or ERYSIPPLAS, PIMPLES, PUSTULES, ELOTCHES, BLAINS AND BOILS, TUMORS, TETTER AND SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC AND MERCURIAL DISEASES, DEOPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COM-PLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarasparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.
